Classrooms that Inspire Creativity, Culture & Character

Suryadatta National School

**Primary, Middle School, Secondary
& Senior Secondary School (Std. I to XII)**

Suryadatta National School (SNS) offers curriculum for Std. I to XII. SNS focuses not only on advanced academic but also on the extra curricular activities. Students are trained at a very young age towards incorporating a sense of responsibility, loyalty, team spirit and healthy competition so as to develop positive attitude in them. Music, Art, Dance, Indoor and outdoor Sports, Yoga etc. are a part of daily routine. The school assures to bring about national scholars who would excel in competitive examinations and still be rooted to Indian values and culture.

Smart Classrooms

Our Smart Classrooms have connected our students to every audio-visual resource available on the internet. Students explore information on-screen with the touch of a finger, a SMART Pen or an extension stick. The images are bright and captivating, and the sensory system engages different learning styles—visual, auditory and kinesthetic which supports knowledge retention.

Our Smart Classrooms make every lesson effortlessly different, as students and teachers access and present in the class an inexhaustible range of resources that enrich and enhance their understanding. Each lesson in the Classroom is exciting and different. The traditional one-way teaching is a thing of the past, and is replaced by an atmosphere of learning where both students and teachers actively participate and contribute.

- Public Speaking Opportunities
- Innovation Lab
- Art & Craft Studio
- Secure & Stimulating Environment
- IQ, EQ & SQ development

Enrichments

Retreats : Maths and Science retreats are organized at least twice a year. The retreats are designed to build bridges between classroom teaching and real life application where Maths and Science can be taught, learnt and applied outside the classroom.

Computer Technology : We train our students in the ICT field right from an early age all through Std. I to XII. The computer labs with updated hardware & software, along with well trained teachers cater to different application programs. The school website has also been designed, developed, maintained and regularly updated by our faculty.

Competitive Exams : At Suryadatta National School Academics is not the only focus of students. The cornerstone of the school philosophy is that students reach their real potential by efficiently applying Academic Knowledge in all spheres of life. Competitive exams like SOF OLYMPIADS, MARATHONS etc form an important part of the school's co-Scholastic Curriculum. The school believes that certificates and awards won during school time offer excellent social recognition. More importantly, they can do wonders for a student's confidence level and greatly improve his/her Portfolio when they apply for colleges. Some of these exams are recognized globally and can open doors to international colleges too.

Student led learning : Student engagement is a central component to our philosophy. Classrooms are designed around the learners' needs with clear-cut boundaries and expectations. Learners are encouraged to be self-aware and take the initiative for expressing their needs. Students are encouraged to find their strengths and mistakes are recognized as powerful teachable moments. Teachers lead, coach and motivate learners to be in charge of their own learning.
